PROFESSIONAL SUMMARY

Bilingual (English/Chinese) customer-facing professional with a track record of bridging communication gaps across international trade, specialty coffee, live event sales, and language instruction. The through-line of my career is consistent: keep communication clear, manage end-to-end lifecycles independently, and ensure clients—from overseas B2B buyers to corporate stakeholders—feel genuinely looked after. Fluent in business English with proven hands-on experience in full-cycle order management, real-time interpretation, and cross-cultural client relations. Comfortable taking ownership in high-pressure, fast-moving environments where no two days are the same.
